

QUICK REFERENCE GUIDE for SPS Workday

1. Navigate to the OneLogin sign in page in using the below link:

- a. <https://stateofmaryland.onelogin.com>

Note: Please save the above URL in your internet browser to quickly access the new login process which is a more secure and reliable method.

2. The screen represents the page you should be seeing after selecting the link

3. At this page, type your W# as your user name and click the Continue button

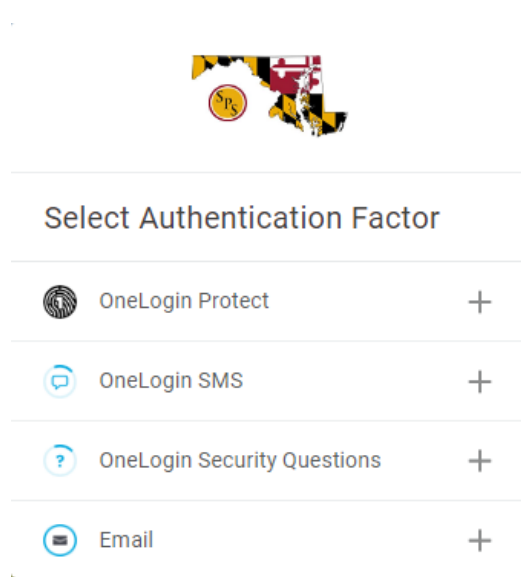

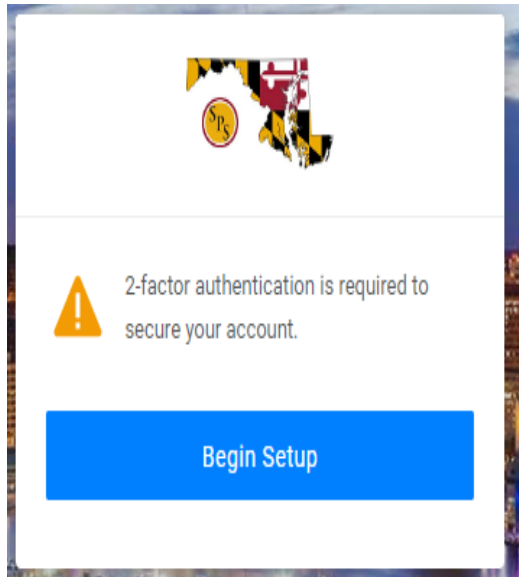

4. At this page, type your Password and click the Continue button.

5. On this screen you will be prompted to register a Multi-Factor Authentication or MFA (sometimes called 2-factor authentication) before you are granted access to Workday. Click the [Begin Setup](#) button to go to the next screen which will have the authentication factors for you to register.

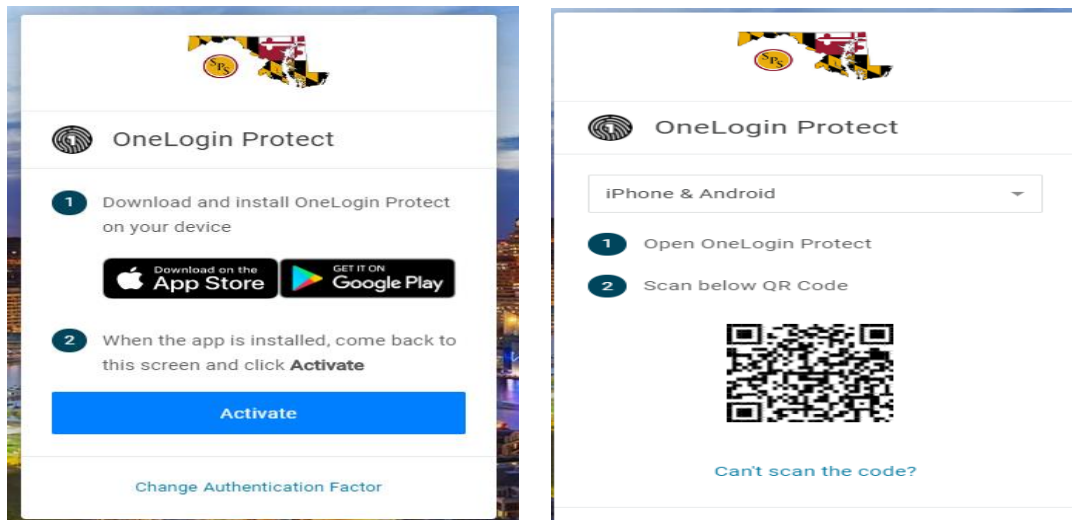

You must register at least one authentication method to access Workday. You can select any of the following Authentication Factors. Please follow below links for step by step instructions of each authentication method.

One Login Protect:

OneLogin Protect for Google/iOS is a mobile authenticator app that provides a one-time-password (OTP) as a second authentication factor. On your mobile device, launch the App Store/Google Play Store, search for OneLogin Protect, install and launch it.

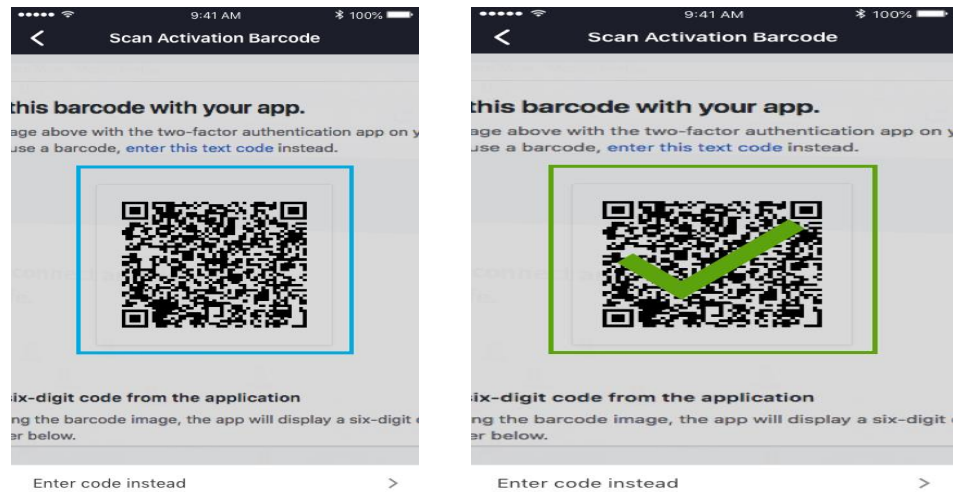

1. Select OneLogin Protect
2. A QR code appears on your screen. Scan the code from your mobile device for setup, keep it open in your browser while you install OneLogin Protect (Click on Activate to popup the QR Code).

3. On your mobile Device Click on the Icon **+** as shown below and scan the QR code.

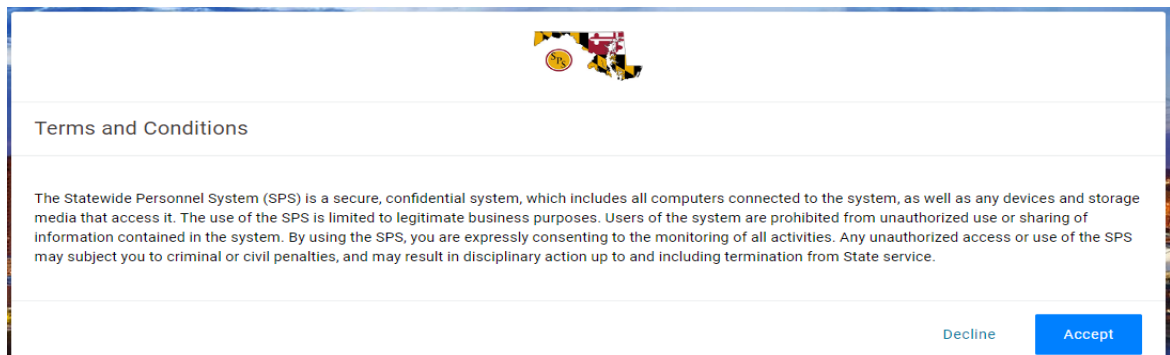

4. You can follow either step a. or step b.
- From the **Scan Activation Barcode** screen, use your iOS device camera to scan the QR code. The box turns green once it's successfully paired (registered) to your OneLogin account.

- If the code doesn't scan for you, click **Enter the code instead** in the app, and in your browser click on **Can't scan the code?** to receive a registration code. Like screen below

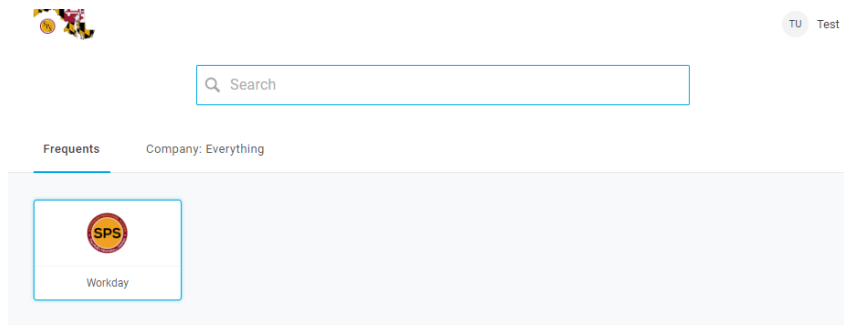

5. You must accept the Term and Conditions to access the Workday system.

6. On the next screen you must change the password provided by the Agency Security Coordinator or Help Desk. Please make sure the new password meets the criteria as per below screenshot. Once the password satisfies the conditions, the green marks will appear.

The screenshot shows a web form for changing a password. At the top, there is a Maryland state flag icon and the text "Your password has expired." Below this, there are two input fields: "Current Password" and "New Password". The "New Password" field has a "Show" button next to it. Below the input fields, there is a list of password requirements, each preceded by a green checkmark: "Minimum 8 characters", "Maximum 128 characters", "1 Lowercase", "1 Uppercase", "1 Number", and "1 Special character". At the bottom of the form is a blue "Submit" button.

7. Click on SPS Icon to access Workday (it will open in a different window).

Security Questions:

Security questions are a form of authentication that end-users can use to verify their identity when they perform self-service password resets or multi-factor authentication.

Generally speaking, security questions are not a very secure factor, since answers to standard security questions are easily found. We encourage you to choose other methods of authentication factors.

1. Select OneLogin Security questions which will show the below screen.
 - a. You must select three security questions
 - b. Answers to the security questions must be different

The screenshot shows the 'OneLogin Security Questions' interface. At the top is the Maryland state flag. Below it is the title 'OneLogin Security Questions' with a question mark icon. Underneath is 'Select Security Question 1 / 3'. A list of five questions is shown, with the second question, 'What is the first name of your oldest niece?', highlighted in grey. The questions are: 'What was your high school mascot?', 'What is the first name of your oldest niece?', 'What is the first name of the best man at your wedding?', 'What was the name of your first pet?', and 'What was the name of your first girlfriend/boyfriend?'.

2. Once you select a question, the below screen will appear where you will enter the answer. Please do the same for THREE questions.

The three screenshots show the answer entry screen for the first, second, and third questions. Each screen has the Maryland state flag at the top, followed by 'OneLogin Security Questions' and a question mark icon. The first question is 'What was your high school mascot?', the second is 'What is the first name of the best man at your wedding?', and the third is 'What was the name of your first girlfriend/boyfriend?'. Each question has a text input field with a 'Show' button to its right. Below the input field is a blue 'Continue' button. At the bottom of each screen is a link that says 'Change Authentication Factor'.

3. You must accept the Term and Conditions to access the Workday system.

Terms and Conditions

The Statewide Personnel System (SPS) is a secure, confidential system, which includes all computers connected to the system, as well as any devices and storage media that access it. The use of the SPS is limited to legitimate business purposes. Users of the system are prohibited from unauthorized use or sharing of information contained in the system. By using the SPS, you are expressly consenting to the monitoring of all activities. Any unauthorized access or use of the SPS may subject you to criminal or civil penalties, and may result in disciplinary action up to and including termination from State service.

Email:

OneLogin Email MFA is an authentication factor that sends an email to a user to verify their identity during an authentication request. The user receives an email and is prompted to enter the 6 digit alphanumeric/numeric code they receive in the email. If entered successfully, the user is granted access.

1. Once the you select **OneLogin Email**, you will be prompted to enter your confirmation code (see screenshot below).

 **Email**

A confirmation code was sent to
j*****@*****d.gov

Enter your confirmation code

OneLogin SMS:

These steps will guide you through setting up SMS (text message) security codes as an authentication factor for OneLogin. The user will be prompted upon login to register their phone number to use SMS text messaging as Authentication factor.

Note: User can register the Phone Number when there is no Authentication factor registered in OneLogin.

1. Once you select the OneLogin SMS, you will be prompted to enter your phone number. Please make sure to enter the phone number where you can get the SMS messages. Once you enter the Phone Number, please click the continue button to go to the next screen.

2. You will receive an SMS message from +1(410) 210-4546. Please enter the code from the SMS message in the Enter your confirmation code field (see screenshot below). If you do not receive the SMS within 2 -3 minutes, or you think that the phone number you entered is entered incorrectly, please click the “Try Again” button. That will take you to the previous screen where you can enter your phone number again.

3. You must accept the Term and Conditions to access the Workday system.
